Subject: RE: RFQ849040-NVR

Tanya,

We have contacted SIS and have pricing now. In speaking with them I understand that there are some UL-2050 issues and/or requirements also, are these part of this service contract? Will we be required to get UL-2050 certificates for some systems and if so we will need to monitor them? This is not a problem for us as we are a UL-2050 certified company and can do any work you may require related to this. We currently have several UL-2050 accounts on SSC property for DHS.

Thanks,

Doug Taylor

Doug,

We have received your quote and your response to our previous questions relative to the subject Request for Quote. As specified in the solicitation, the NAVOCEANO requirement includes a request for SIS maintenance. Also, Securadyne's confirmation is requested that the proposal includes services of the DMP receivers, redundant servers, RAID drives, computer workstations, and printers. Proposal revisions will be accepted until 1600 CDT on 20 Mar 2014.

V/r,

Tanya
